## Storm, Flooding Property Losses Are Deductible

Persons suffering property damages from recent tornadoes, severe storms and flooding may deduct these casualty losses on their federal income tax returns, Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, said today.

Deductions for casualty losses are available to the many people who suffered damages to grounds, dwellings, automobiles, furniture and other property used for personal and business purposes.

Deductible casualty loss can result from complete or partial destruction of property. Generally speaking, it must result from an identifiable event of a sudden, unexpected or unusual nature.

On property held for personal use, the amount of the loss is the lesser of (1) the adjusted basis of the property or (2) the decrease in the fair market value of the property as a result of the casualty loss. From this amount, you must subtract the insurance or other compensation which you receive or expect to receive.

Only the amount of the net loss of property used for personal purposes in excess of \$100 per casualty is deductible. Married taxpayers filing joint returns need to exclude only one \$100 for each casualty. If they file separate returns, each is subject to the \$100 exclusion.

The Internal Revenue Service has available a pamphlet entitled "Disaster, Casualties and Theft." Document No. 5774, which explains to taxpayers in everyday language the tax benefits available to them as a result of their losses.

It should answer almost any question a taxpayer has on these subjects and has an important section describing the type of records that should be kept to support claims for losses incurred.

Philpott said the booklet is free and can be obtained from any local Internal Revenue office or ordered by mail from: District Director, Internal Revenue Service, Springfield, Ill. 62704. He also reminded that if taxpayers need further assistance, the local Revenue Service office is available to help.

## 75 Units to March in Shrine Parade Friday

More than 75 units will march in the Almad Temple Shrine parade Friday evening in Belleville to kick off Almad's annual Shrine circus. Potent Harold R. Mammie Jr. announced. Among them will be local Shrines, DeMolays and Masons.

The parade will start at 8 p.m. on the county seat near the 2100 block, will move along West Main, around the Belleville square where a reviewing stand will be located, then to East Main where it will disband at the Union Methodist Church.

Moolah Temple of St. Louis will join 16 Almad units, including the mounted Lancers. Other participants will be DeMolays, Jobs Daughters, Masonic groups and civic organizations.

High school bands and drum and bugle corps will follow Shrine musical units, and Almad's 55-man clown unit will distribute hundreds of pounds of candy. Nearly 25,000 persons watched the parade last year.

## Behavior Workshop Starts at SIU-SW

Behavior problems of children will be analyzed in a workshop at Southern Illinois University-Southwestern campus today through June 14 under the direction of Cameron Meredith, an authority on parent-child relations.

The classes will be conducted daily Monday through Friday in Room 1004, Annex A of the Alton Center the first week, and in Room 1410 of the Peck Classroom Building on the campus the second half.

Meredith, professor of psychology and guidance, said the sessions are designed primarily for counselors, teachers and parents. However, he indicated, they also would be worthwhile for psychologists, social workers, ministers and other people devoted to helping others.

Described as counselor education, the graduate course is available for four quarters credit or on a conference basis. Emphasis is on the educational approach to more effective human relationships which leads to healthier development of individuals.

Persons may register through the University Extension Service or by calling Meredith at 692-2440. The program's official title is "Workshop in Official Problems and Their Prevention."

Meredith said the workshop is the first of three that will be conducted in June and July on family studies.

Bennie Ramos, 29, and his brother, Louis Ramos, 27, both of St. Louis, were taken to St. Elizabeth Hospital for treatment last a.m. Friday after they were beaten by a group of seven men outside Garrett's tavern in West Madison.

Louis Ramos received sutures for a cut over the left eye. Bennie Ramos was uninjured. The men told Madison police they were attacked by the group as they left the tavern. Police took the men through Garrett's tavern and another tavern after the beating, but they were unable to locate any of their assailants.

## 25 Motorists Arrested For No City Stickers

Twenty-five Granite City motorists were issued arrest tickets Wednesday for failing to have obtained city auto stickers, as traffic division police continued their drive against violators.

Arrests were made in all parts of the city. Violators are subject to fines plus the purchase of the \$3 city license. The crackdown will continue, according to police, who urged motorists without the licenses to obtain them and avoid arrest.

## Marriage Licenses Issued

Marriage licenses have been issued by Deputy Clerk Elvira Thurber to Robert Selwood of Topp, Mo., and Bonnie Carroll Cunningham of Chicago; George F. Arnold, 2928 Willow avenue, and Marion Lindsey, Beecher City, Ill.; and Fred J. Sinrold and Dixie Dawn Good, both of St. Ann, Mo.

## Ford Challenged By Clifford to Show Evidence

Madison County Sanitation Officer Jack R. Clifford on Friday challenged Robert Ford, a state representative candidate, to appear before the county sanitation committee at 1 p.m. Wednesday to present any evidence or information he may have.

Ford, a Wood River township assistant supervisor, testified before the committee last Monday and referred to alleged improprieties which he said he learned of from truck drivers. Clifford responded with a letter to Ford saying that "everybody is concerned is anxious to get to the bottom of this matter as soon as possible."

Clifford said that among those present besides the five-member committee was County Board Chairman Harold Landolt, State's Attorney Leon Scroggins, Clifford and Sanitation Department Inspector Paul Hawkins.

## Defends Inspections

Hawkins described as "a bare-faced lie" allegations by Ford that trucks are being approved that do not meet landfill ordinance regulations. Hawkins said secretaries from the county clerk office and sanitation department were with him when trucks were inspected and licenses issued.

Hawkins said Missouri haulers were not inspected or licensed because of an injunction against the sanitation department obtained by the Mal Corp. and a long list of Missouri dumpers. The injunction prohibits the county from licensing out-of-state vehicles.

Discussing a program under which numerous small landfills have been closed, Clifford said, "There has never been a payoff made to anyone to my knowledge to eliminate competition and allow larger landfills."

## Health Hazards, Eyesores

"We'll be happy to show you every dump we have closed. Let the people determine whether we were right or wrong in closing health hazards and eyesores," Clifford said.

## Noting that Fed. Ser.

chairman of a Chouteau Island citizens' committee, had told a state legislative committee that landfills on the island are subject to flooding, Clifford said pictures shown to legislators apparently date back to 1947.

Clifford urged that legislators conducting hearings "become more knowledgeable about the subject they are pursuing."

## He added that sites he

has approved also have the approval of the Illinois Geological Department and Illinois Department of Public Health.

## Collide in Madison

Cars driven by Lawrence J. Burns, 1832 Cleveland Blvd., and Frank Bosworth, 2913 Buxton avenue, were damaged in a collision at 13th street and Madison avenue, Madison, at 2:36 a.m. Thursday, according to a report to Madison police.

Bosworth told officers he was headed west on 13th street, made the stop at Madison avenue, then backed up to park and struck the other car. Bosworth was ticketed for driving without a driver's license.

## Diving Exhibition for Paddler Pool Opening

Opening day ceremonies at Paddlers swimming pool, 2121 Joliet street, was conducted at 1 p.m. Thursday, and featured a diving exhibition and introduction of club directors and new staff members.

The program began with a flag-raising ceremony and a pledge and National Anthem, led by Girl Scout Troop 230, under the supervision of Mrs. Kiril Kirchoff and Mrs. John Bloodworth.

Albert Malottki, Paddlers president, welcomed about 200 members and guests and introduced Don Rudling, president of Pool Care, Inc., whose organization was charged with readying the twin-pool facility for the 1968 season.

Rudling presented personnel who will supervise operations at the pool. They included Don Maxey, field director; Richard Van Hook Jr., pool manager; assistant managers, James Harsh and Perry Taylor; lifeguards, Stanley Hoffman Jr., Peter Sabir, Debbie Byers and Linda Lyubarsky; and concession attendants, Carol Noeth, Stanley Caldwell, Carole Robertson and Max Ruth Cox.

Mrs. Marcia Buehner, special events chairman and a club director, announced an adult's "Get Acquainted Night" will be held at 6:30 p.m. Saturday, June 15. Tickets are available at \$2 per couple and each two-week is asked to have a covered dish.

Mrs. LaVenka Meyer, membership vice-president, reported a few permanent staff memberships are available and the club still is accepting applications for summer memberships.

Further information may be obtained by calling, 452-4169.

Annual dues may not be submitted at the pool, but must be mailed to Paddlers Inc., P. O. Box 463, Granite City, Mrs. Mary Jessup, club treasurer, announced she also reported the start of swimming lessons would be delayed one week due to cool weather.

The billboard section of the zoning ordinance now calls for various sized signs for different zoning classifications as residential, agricultural and commercial. Howard Kaseberg of Granite City, board chairman, said efforts are being made to establish a more uniform policy in billboard zoning.

## Spiritual Builders Cited as Principal Need of Mankind

"Today's world of destructive upheaval and tremendous change calls men to be spiritual builders."

This appeal from the Christian Science board of directors was heard today by over 7000 Christian Scientists, gathered in Boston from around the world for the annual meeting of The First Church of Christ, Scientist.

The message from the board, read by Arthur P. Wuth, its new chairman, stressed individual effort as the first step in any attempt to help solve the world's ills.

"Poverty, ignorance, war, racial conflict, immorality, physical and mental ailments, social enslavement, exemplify standards torn down, spiritual ideals desecrated, the best of civilization fallen into disuse," Wuth said.

Nehemiah's example as a spiritual builder was cited as still vital and useful to Christians today. In rebuilding the wall of Jerusalem, Wuth explained, Nehemiah was making practical his own understanding of God and His kingdom.

"Not the need then for individuals dedicated to their work, committed and consecrated to the task of spiritual building?" he asked.

Inspired Action Urged  
Wuth quoted the disciple, Peter, "Ye also, as lively stones, are built up a spiritual house, a holy priesthood, to offer up spiritual sacrifices, acceptable to God by Jesus Christ (1 Peter 2:5)."

"Lively stones imply more than building blocks," he continued. "Liveliness denotes action, action resulting from spiritual unfoldment, action that is inspired, right, God-sustained."

God-supported, God-sustained. Singling out war and racial conflict as two of the major problems which the Church must confront, Wuth said:

"The Church must fulfill the requirements of peace by teaching the practicality of the great commandments—love 'for God and love for one's neighbor.'"

Must teach the values of God, good, the impersonality of evil, and the ability of the individual, whatever his race or color, to demonstrate this.

"Harmony, order, and peace know no color line. They belong to Jesus, the Prince of Peace of each individual; and it is the responsibility of Church to assert, demonstrate and maintain this standard."

The healing and uplifting ideal building by means of work of Jesus, Wuth said, tested the practicality of his prayer and inspiration.

Mary Baker Eddy, who discovered and founded Christian Science, taught the need for each individual to contribute to the progress and regeneration of society through spiritual building, he said.

New President Confident  
Gordon W. Comer, newly-elected president for the coming year, said that whatever the turmoil of the present times, spiritual values and all the blessings they bring to humanity will survive.

The Christian Scientists visiting Boston this year noticed many changes resulting from the large building project now under way.

Considerable demolition and foundation work has already been completed. Construction is expected to begin this month on a new administration building, a new Sunday school building and a large multi-purpose building.

At present, activities at the headquarters of the denomination are carried out in eight different buildings; centralization of facilities and personnel is regarded as long overdue. The new Church Center is expected to be under construction for about two and a half years.

## GC Park District Sets Registration Dates

Baton lessons for beginning twirlers, a girls' recreation program and gymnastics and tumbling classes for first through 12th grade boys and girls will get under way next week at Wilson Park. It was announced today by Harold Brown, park superintendent. All programs will be offered Granite City residents without cost.

The tumbling and gymnastic program is slated to be held at the Wilson Park rink-recreation center on Mondays and Wednesdays from 9:30 to 11:30 a.m., with first through 12th grade youngsters registering at the rink next Monday at 9:30 a.m. Brown said a special class for mentally retarded children will be conducted at the rink each Tuesday during the same hours. On Thursday, June 13, children interested in learning baton twirling are invited to enroll for a beginners class to be held each Thursday morning from 9:30 to 10:30 a.m. under

the direction of Miss Marilyn Champion.

Fifth through 12th grade girls may register at 9:30 a.m. the following days at the Wilson Park rink, to participate in weekly recreational activities, scheduled to take place each Friday from 9:30 to 11:30 a.m. Girls registered for the summer recreational program will participate in such activities as shuffleboard, archery, hockey, volleyball, table tennis and shuffle alley, Brown said.

The park official reminded parents that each youngster taking part in the district's summer program is required to pay a \$1 insurance fee, which protects the child against mishaps. Park programs excepted under \$1 per year insurance schedule include gymnastics and tumbling, baseball leagues and wrestling. Further information on coverage for these programs may be obtained by calling the Wilson Park office, at 877-3039, Brown said.

## New Rulings on Rifles, Air Control, Billboards

Members of veterans' organizations who participate in ceremonies and graveside rites using rifles issued to them at random for each ceremony are not required to possess a Firearms Owner's Identification Card, Attorney General William G. Clark has held.

There is no statutory provision, Clark's opinion informed Ross V. Randolph, director of the Department of Public Safety, permitting an "unaccompanied minor" to obtain such a card.

Another new ruling is that the compensation of township assessors may not be increased or decreased during their term of office, Clark has advised Theodore A. Jones, director of the Department of Revenue.

Clark has held that: The Illinois Air Pollution Control Board cannot legally adopt and file with the secretary of state rules and regulations to control air pollution crises within the state.

A candidate for public office who has filed a written request for withdrawal of his candidacy cannot have his name reinstated as a candidate.

Advertising signs and billboards prohibited by state law and scattered along the Illinois Interstate Highway System should be prosecuted as a misdemeanor by the state's attorney in the county where such signs are located. And county boards do not have the authority to enact fair housing laws.

## Enemy Batting Barrages Beat GC Steel, Mercer

Granite City Steel Credit Union lost to the Polish-American War Veterans of East St. Louis 9-4 Sunday afternoon at Wilson Park while Mercer was being defeated 10-4 at Collinsville at the hand of the Molitor Motors team in Southwestern Illinois Inter-City Baseball League action.

It was a close game in both situations until big scoring spurges by the enemy teams settled the issue.

Mercer scored a run in the first inning and another in the second to take a 2-1 lead that held until the seventh inning, when Molitor exploded for nine runs on three walks, three hits and three fielder's choices. The big blow of the inning was Dave Hasenab's grand slam home run.

Bruce Thompson was the winning pitcher, giving up six hits, while Jim Rains was the loser. Mike Sanderson and George

Wasylak relieved for Rains in the seventh inning. Credit Union also held a temporary 2-1 lead over East St. Louis after the visitors scored in the top of the first and Granite City scored in the bottom of the third.

In the fourth inning, Polish-American broke the game open by getting five runs on two walks, two doubles and a single. The only other time that Credit Union threatened was in the eighth inning, when it loaded the bases on hits by Arvil Taylor and Roger Laws and an infield hit by Pat Harris.

One run scored on a hit batsman, and a fielder's choice allowed a second run to score. The bases were still loaded when the side was retired.

In other games, Pochonias beat Maryville 7-3 and Troy recorded its first victory of the season, against East Alton 6-4.

### AN OPEN LETTER

### TO THE VOTERS IN THE

## 55th REPRESENTATIVE DIST.

I am a Democratic candidate for State Representative in the 55th District. There are a large number of candidates seeking this office and only two will be elected.

I need your vote and I earnestly solicit your support.

I am a practicing attorney in Granite City and have mostly represented working people in my law practice. I represent the members of United Steelworkers of America with their Workmen's Compensation claims and therefore have first-hand knowledge of the problems confronting working people.

You are entitled to know the views of your candidates. Below are listed my views on some of the important issues we face today.

1. I feel the hiring of strike-breakers during a labor dispute is immoral and cities should be allowed to pass ordinances preventing companies from hiring strikebreakers. I would also favor a State Law prohibiting companies from importing strikebreakers during a labor dispute.
2. I am opposed to any restrictions on Union members' right to strike.
3. I favor improving the Workmen's Compensation and Unemployment Compensation Laws to provide broader coverage and increased benefits to workers.
4. I will vote against any so-called "Right to Work Laws" or other legislation detrimental to working people.
5. I favor a minimum wage in Illinois comparable to the Federal minimum wage.
6. I am in favor of repealing the present unfair gun registration law.
7. I pledge to all the voters in the 55th District that I will work diligently, if elected, to represent you with all the vigor and honesty that I possess.

I hope you will give me a chance to represent you in the Illinois legislature by voting for HORACE CALVO on Tuesday, June 11th.

**HORACE L. CALVO**

**NEW MEMBERS INITIATED** by Delray Rebekah Lodge 786 and degree staff members in a recent ceremony. **JUNE BRIDE**, Mrs. Donald E. Bellman, the former Phyllis Abell, a daughter of Mrs. Margaret Abell, 2500 Adams street, who was married Saturday evening at St. Peter United Church of Christ.

### Miss Phyllis R. Abell and Donald Bellman are Wed

Arrangements of white gladioli, lighted candles in aisle candelabra and white satin bows marking the family pew, provided the setting Saturday evening for the wedding at St. Peter United Church of Christ of Miss Phyllis R. Abell, a daughter of Mrs. Margaret Abell, 2500 Adams street, and Donald E. Bellman, whose parents are Mr. and Mrs. Roy Bellman, 2800 West 20th street.

Rev. Dr. Robert J. Baumann, pastor, officiated at the 11 o'clock ceremony which was followed by a reception in the church Fellowship Hall.

Music for the wedding was furnished by Edwin Henke, soloist, accompanied by the organist, Robert Dial. The songs were "Wedding Prayer" and the Lord's Prayer.

Susan McKinney and Barbara Weldon lighted the candles. The bride was given in marriage by her grandfather, Leon W. Frazier. She wore a bouffant chantilly gown with a molded bodice, a sabrina neckline, long sleeves and a floor-length skirt which swept into a graceful cathedral train.

A cluster of chantilly petals outlined with pearls and interspersed with organza roses secured the bride's tiered veil of imported silk illusion and she carried a cascade bouquet of white butterfly roses and English ivy.

A little flower girl, Trudy Kimbrell, wore a short frock of aqua with puffed sleeves and a Peter Pan collar. Organza flowers and petals of aqua secured a miniature veil of marine in the same shade and she carried a cascade bouquet of white butterfly roses and English ivy.

They were dressed alike in A-line gowns of aqua karati, with Empire waists and round necks with multi-colored embroidered design. ## Park District to Offer 'Children's Theatre'

Excellent response to the "Children's Theatre" program sponsored for the past two summers by the Granite City park district, has prompted renewal of the series of special classes in the district's 1968 summer schedule. Harold Brown, park superintendent, announced today.

Youngsters and teenagers who reside within the park district boundaries are invited to enroll for the program at 9:30 a.m. next Monday at the Wilson Park recreation center. Classes will be conducted each Monday, Wednesday and Friday from 9:30 to 11:30 a.m. No charge is made to participants.

Brown explained that those enrolling will be introduced to various phases of theatre work, including workshop sessions in makeup, stage direction, voice projection, technique of acting, natural body movement, pantomime and scenery construction and arrangement.

At the conclusion of the summer series, theatre students will present a play or musical production, Brown said. Last year, nearly 50 kindergartners through teenage youngsters performed a fantasy comedy, based on the musical "Mary Poppins."

## Next Tax Installment Goes to Kansas City

Taxpayers who have a payment due June 15 on their 1968 estimated income tax were reminded today that such payments must now be made directly to the Internal Revenue Service Center at Kansas City, Mo., rather than to the district office in Springfield, Ill.

This word of caution was issued by Jay G. Philpott, district director of Internal Revenue for central and southern Illinois.

Philpott said that notice of payment on estimated tax due June 15 will be mailed to taxpayers in the near future, included with such notice will be a self-addressed envelope bearing the Service Center address for the taxpayer's convenience in mailing his payment.

All taxpayers were cautioned to note this change in the mailing of remittances so they will be sure to receive prompt and proper credit for their payment.

Philpott added that all self-employed taxpayers also will receive with their estimated tax statement a special announcement calling to their attention a change in the Social Security Amendments of 1967, approved Jan. 2, 1968, which increased to \$7,000 the amount of self-employment income subject to self-employment tax for taxable years ending after Dec. 31, 1967.

The self-employment tax rate remains at 6.4%. Thus, for a taxable year ending in 1968, the maximum self-employment tax is \$469.20.

The late passage of this legislation may make it necessary for some self-employed taxpayers to amend their declaration of estimated tax for 1968. They should use the schedule on their estimated tax bill for this purpose, he said.

## Mexican Commission Plans Benefit Events

A series of benefit projects to aid a building fund campaign was planned yesterday by the Mexican Honorary Commission of Granite City in a meeting at the Jaycees hall in West Granite.

Construction of a proposed building for the commission's activities was discussed and an outline was prepared for various fund-raising events, starting with a "bake sale," at 9 a.m. Saturday in Schermer's Market, Madison. Other projects announced by Frank Ortiz, building fund chairman, include tacks stands at the Wilson Park Fourth of July festival and Jaycees homecoming.

Steve Ortiz, commission president, appointed Hank Lopez as chairman of a special group in charge of designing and decorating a float for the "American Week" parade and fund-raising event at the annual "Mexican Fiesta" on Sept. 21. Work will start this week on a new playground area, Ortiz said.

Two Charged in Madison

William L. Boyer, Rural Route One, Granite City, and Carl Ausmans, Jellier, Tenn., were arrested by Madison police yesterday on charges of parking in a prohibited zone. Both posted cash bonds pending hearings.

## Council Battle Over Committees Expected Tonight

A continuation of last week's disagreement between Mayor Partney and a majority of Granite City council members over selection of council committees is expected for tonight's 8 o'clock session.

Legal opinions — both written and verbal — are to be submitted by the mayor and by Alderman Boyd, relative to authority granted in the city code and municipal handbooks.

The mayor named committees at the May 20 session and confirmation was deferred by the council. The council's selection was presented at the May 27 meeting by Alderman Robertson, and the mayor refused to recognize the motion for approval. Robertson appealed the decision, and the council voted 13-3 for the committees.

However, Mayor Partney stated he would hold his own committees and the chairmen he named. Boyd agreed, the mayor could select chairmen, but they would have to be from the committee members selected by the council.

Pending before the council is the annual financial report by Comptroller Robert Stevens and a review of any proposed figures for the city's new budget. The fiscal year started on May 1.

The council meeting will be preceded by a 7:45 p.m. town board meeting.

"There's something we can do today," Chapman continued. "We can examine our prejudices and hostilities toward others and accomplish something on Memorial Day. If we purify ourselves, we can halt wars."

In Venice, Miss Hinson noted the day was the 100th anniversary of Decoration Day or Memorial Day and briefly reviewed its history and also the story of the Memorial Poppy, pointing out that both world war I and II were on areas of France where poppies grow.

## Most Taxes Called Unfair, But Government Revenue Is Essential

(University of Illinois Student Reporting Project)

Local government is big business. Federal and state governments may grab the headlines, but the nickel-and-dime deals at city hall and the local school board cost money, too.

In 1963, local government in Illinois spent more than \$2.6 billion—almost twice that spent by the state itself.

There are no Hoover Dams or space shots to show for it, but cleared of snow, the county sheriff was paid and the county parks were maintained. But there never seems to be enough.

Illinois is one of the wealthiest states in personal income—third in the nation. The average citizen's total tax burden, however, is \$35.75 per \$1000, far below the national average of almost \$50.

The state controls local governments by withholding all powers it does not specifically delegate to them.

And when it does grant powers, the state often sets the standards (and pays for the inspection apparatus) under which the "local control" must operate—and this includes financial control.

There are three basic sources of revenue available to local governments: taxes, intergovernmental revenues, and charges and miscellaneous revenues.

Of the three, taxes yield the most money.

**Six Principal Taxes**  
 Of the six taxes in Illinois, three have been accused of being unfair. Unfortunately, they happen to be the three most lucrative—the property tax, the municipal sales tax, and the county sales tax.

The largest revenue producer is the property tax. It is the only regular source of income for special districts and school districts and provides the greatest percentage of county and township revenues. Even municipal governments, with their numerous sources of income, lean heavily upon it.

But numerous economists say this tax is inequitable.

The nature of the tax assumes that a piece of property worth a given amount is as capable of producing tax revenue as any other piece of property of the same value. This is just not true, however. This is state whose economy is becoming increasingly more industrial.

To say that a \$7000 sheet metal factory building should be taxed the same as Mr. Anderson's \$7000 home is to ignore the fact that the income-producing capacity, economists say.

**Property vs. Salary**  
 Also overlooked are those persons who earn a large salary without the use of property. Farmer Jones, if he earns \$10,000 this year, not only has his home taxed, but his property as well. Yet, a stockbroker earning \$100,000 a year pays only 1 percent for his house.

The greatest single inequity of the tax, however, lies not so much in the nature of the tax itself, but in the practicalities of collection. It is the "tax that makes liars of us all," said Samuel Gove, professor of political science at the University of Illinois.

The general property tax is supposed to affect not

only the owner of real estate, but also the depositor, the firm, the household furnishings, savings bonds and even heirloom cuff links.

But, in most cases, local assessors make little or no attempt to evaluate such classes of property.

It is estimated that personal property comprises at least 30% of all property in the state; yet, recent figures show that only 20% of general property tax receipts are derived from this source.

Thus, the net burden of the tax falls upon the real estate owner and the farmer and Jones, whose livestock and equipment are too bulky to hide.

The apartment owner can pass the tax on his property onto his tenants by higher rent, but where does the individual homeowner go? In Illinois, he is forced to pay more than his fair share of the costs of government.

**Sales Tax Burden on the Poor**

The second tax is the sales tax, which is collected by the state, county and municipality. It is a percent of gross retail sales, which means that when the sales clerk adds your purchases he refers to a chart on the front of his cash register and totals the tax.

This means you are paying the tax, and instead of being a tax on sales, the misnamed retailer's occupational tax, in effect, a tax on gross retail sales—yours and mine.

Since the local income family spends a greater percentage of its monthly income on retail purchases than does the high income family, the burden of the tax is relatively greater for the poor than the rich. Equitably, taxes should be levied in proportion to the person's ability to pay.

But if the sales and property taxes are inequitable, what can be done? Unfortunately, the answer is not simple. Because they are both productive sources of revenue and vital to the operation of local governments, it would be unrealistic to expect their abolition.

**Income Taxes Proposed**

A possible alternative may be the income tax. The graduated income tax is generally accepted by economists as being the fairest tax. Although proposed basically as a source of state income, some Springfield legislators have suggested it as a source of local income.

If voters approve the referendum for a calling of a Constitutional Convention, a revamping of taxes will be discussed and possibly carried out, according to Gove, a member of the State Tax Commission, created by the most recent legislature.

This commission has been studying some of the problems with the current Illinois constitution, which has been the cause of the state since 1970. Should voters approve the referendum in the November general elections, the commission is prepared to make recommendations.

The property and sales tax are by far the most productive. But the problem of equitable taxation is vast and complex, and the individual taxpayer owes it to himself to understand it. He does, after all, pay the bills.

it was announced the same day that he died that there would be no replacement for him or for the next associate circuit judge to die or retire.

This seems to say either that the bench has been overstaffed in the past, or that it will be undermanned in the future.

We doubt that the former is true, since reports indicate there is still enough of a backlog of civil cases to divert many of them. Two Criminal cases do not show as much of a backlog due to the large number of dismissals and due to the necessity to process with dispatch and within a specific time, but there is no question that Judge Lewis' experience in this phase of the workload will be missed.

It would be unjustified and unwise to cut back on the type of service Judge Lewis happened to have been rendering; he conducted numerous criminal cases and was one of those who on an alternating basis presided in Granite City. Death could have called any of the seven jurists; the issue is not what he specifically handled, but rather maintenance of the full range of court services handled by the seven.

It is to be hoped that the staff headed by Chief Judge Monroe now has an obligation to devise ways of continuing all the past activities and public conveniences, or of making potential problems known to the court for corrective action to be taken by the Illinois General Assembly or the state court administrator.

The court system initiated four years ago throughout the state admittedly requires adjustment from time to time, since past estimates cannot match present needs indefinitely.

With the benefit of hindsight, it is clear that three circuit judges and two associate judges and three are not enough in this busy and fast-growing circuit.

### An Honor to the Quad-City Area

The first visit to the Quad-Cities by the Miles Laboratories board of directors since acquisition of the Union Starch and Refining Co. in 1966 is a welcome development.

The Miles firm operates throughout the world and is one of the largest and most respected in its diverse fields. We trust that its visit to this community will be mutually rewarding.

## Illinois in 1818—English Colony

### Established at Time of Statehood

(From the Files of the Granite City Press-Record)

Edwards county was settled in 1818 by an English colony brought over from England by George Flower and Morris Birkbeck.

They came through this territory in 1817, seeking a place for a settlement of their countrymen.

Birkbeck had heard of the prairies of Illinois from travelers, and he judged by the description that it was a settlement could be made to the best advantage.

He searched many months for the Illinois prairies and at last found them. He immediately joined with Flower and they prepared for the establishment of the settlement.

The first purchase of land for the settlement consisted of 3000 acres.

During 1817 and 1818, Birkbeck acquired 41 and a fourth sections, or 26,400 acres in all, and Flower, after his return to England with the first shipload of emigrants, made additional purchases.

Flower brought over in the first emigration about 41 persons, together with their livestock, agricultural instruments, seeds and other equipment.

By October, the settlement had grown to 200 English. The first party included only three women, but later arrivals consisted of families.

In a book later published, Flower gave a description of the development of the settlement.

"Emigrants kept coming in, some on foot, some on horseback, and some in wagons," he said.

"Some sought employment and took up with such labor as they could find."

"Others struck out and made small beginnings for themselves. Some with feelings of petulance went farther and fared worse; others dropped back to towns and settlements in Indiana."

"At first I had as much as I could do to build a few cabins for the workmen. I then employed, and in erecting a large farm yard 100 feet square, enclosed by log buildings two stories high; also, in building for my father's family a house of considerable size, appointed with more of comforts than are generally found in new settlements, to be ready for their reception the following summer."

"Every person wanted the services of a carpenter and blacksmith, yet every farmer could not build workshops at his own expense. He had no candies nor any means of making artificial light."

The English settlement in 1818 was too young and too much occupied with its own problems to exert much influence upon the affairs of the new state, but its influence was destined to be considerable in the future.

The leaders were men of superior intelligence and education and took an active share in public life.

Especially in the struggle over the abolition of slavery in 1823 and 1824, their influence was felt on the side of freedom.

The settlement promoted the agricultural development of the state. The leaders were well instructed in the theory and practice of agriculture and the farmers whom they brought over were accustomed to hard labor.

The capital of the colony enabled them to carry on operations on a scale hitherto unknown on the frontier, and the blooded stock which they introduced was a valuable asset to the community.

Moreover, the English settlement gave to Illinois unlimited advertising, not only in England but on the continent throughout the United States. It helped materially in the building of Illinois.

In addition to these developments, many other events coinciding with or related to the admission of Illinois as a state in 1818 are being recalled in this exclusive Press-Record series, based on information contained in the files of this newspaper.

The 1818 information is of special interest this year, 1968, because of the 150-year interval, which is responsible for various Illinois sequential commemorations.

Additional state and local topics tracing early history will be presented in subsequent issues, culminating in an account of the formal admission of Illinois as one of the United States on Dec. 3, 1818.

Stentzer precinct committee—some other purpose than citizen?

Do I really want to pay tribute to honor all I war debts? Have I heard Memorial Day offered? Have I witnessed the ladies walking out into the rain, down the city hall lawn through the grass, bowing their heads and placing wreaths in honor of our veterans?

All veterans of all wars have been given honor for 33 years, each May 30 at the veterans' moment of silence at the city hall in Granite City.

The monument was erected and presented to the city in 1933. The 90, Daughters of Union Veterans.

Never a Decoration Day has gone by without the DUJ extending an invitation and receiving the help and cooperation of the veterans' organizations, individual citizens, churches, the police department and others to make the services complete.

One of the most loyal has been the Granite City high school band. All 33 years, the band and its instructor, Louis Weidner, have been present at the Memorial Day services. Many, many years the band marched with the DUJ and others, in Venice during the morning and in Granite City during the afternoon.

Some wreaths were placed by DUJ members for sons, and others for their husbands and brothers. Other wreaths are placed for buddies and to honor all deceased veterans.

Memorial Day is essentially a time for Americans to re-examine their attitudes toward the ideals for which our honored dead fought so bravely. By continuing to fight for freedom, we can be certain their struggles were not in vain.

**CALVO FOR LEGISLATION**  
 SOUGHT BY LABOR GROUPS

To the Editor:

After reading the letter supporting the formation of the Granite City in the Forum last week, I would like to add my support for Mr. Calvo, and tell you that I am a worker.

I must work for a living for myself and family. Therefore, I need support from people who are working in the working people in this state.

(Mr. Calvo is overtly opposed to a Right to Work Law. He is a member of the Illinois State Teachers' Association, which is a union of teachers who have such laws and the economic conditions of the state and their working people; the conditions are terrible in these 19 states.

(2) He favors better laws on Workmen's Compensation for the injured and fatalities that occur in the various plants, and has the greatest knowledge of Workmen's Compensation of any candidate on the ballot due to serving in this capacity as attorney for the United Steelworkers of America—and handling 608 cases and helping 200 workers collect \$268,000 last year.

(3) He favors better and less complicated Unemployment Compensation laws.

(4) He likewise supports the Workmen's Bill in Congress, where 14,000 employees are killed each year.

(5) He is opposed to a Constitutional Convention, and a doesn't think this is the proper way to raise taxes or increase revenue. He firmly believes that taxes should be voted on by the people of the state by referendum ballot.

I urge all working people to vote and support a candidate who is for the betterment of the working people. Mr. Calvo is.

Ask the other candidates where they stand on the above issues. One candidate, whom many believe should be running as a Republican for state representative, doesn't even know a Right to Work Law is.

**FRANCIS GIVES VIEWS ON MEDICAL SCHOOL, PARK**  
 To the Editor:

I am writing in response to a recent Press-Record editorial concerning the proposed medical school and a proposed state park in the area of Lake Michigan, which stated that candidates for the legislature should express their views to the newspaper.

First, let me express my opinion in favor of a medical school in southern Illinois, provided that that medical school is built in a metropolitan area.

The only place in southern Illinois that meets this requirement is the Madison-St. Clair county area.

The nation needs doctors and there is no reason why the state of Illinois should not train its share of doctors. There are no training facilities for doctors of our state outside of Chicago. Even the University of Illinois operates its medical school at Chicago.

A medical school cannot exist except in conjunction with hospitals which are large enough to have a diversity of ailments and specialists to treat these ailments.

There was talk at a recent meeting which considered placing a medical school at Springfield. I would be against building any medical school at Springfield because there would not be a sufficient number of teachers (meaning doctors specializing in particular ailments) available.

In our own area, we have facilities at Scott Field which are as modern as any hospital could be. We have two hospitals in East St. Louis, one in Granite City, one in Wood River, one in Alton and a wealth of hospitals in St. Louis.

With an ability to draw from all these hospitals, medical facilities located in our urban complex should be able to draw top-flight students who would be a credit to the profession.

As to the park, I have already stated a position that we should have many more parks both in our state and our composite urban complex.

**CITIZENS FOR STENTIZER**  
 HONOR WAR DEAD BY MAINTAINING FREEDOM

To the Editor:

Relative to a May 9 letter in the Forum, "Area Should Honor Veterans," I would like to express my appreciation to the Memorial Day observance on the Civil War. Graves of both Southern and Northern battle dead are decorated in several states on May 30 even before the day is officially designated.

John A. Logan, commander-in-chief of the Grand Army of the Republic, asked that appropriate services be arranged in addition to decorating graves.

He expressed the hope that the observance would be continued each year. Americans responded and today Memorial Day is a legal public holiday in most states.

# Do you still turn on your range to defrost your refrigerator?

If you're still using the old fashioned "hot pot" method of defrosting, now is a good time to consider a new refrigerator-freezer. There's no defrosting—ever.

With a no-frost refrigerator-freezer you never have to worry about defrosting—like getting involved in the routine of putting pots of water on the range to boil. Or the messy clean-up that follows a defrosting job.

For help in deciding whether your present refrigerator measures up, watch your mail for your "Refrigerator-Rater." Then see your appliance dealer. He has a host of other features to show you—including attractive prices.

## Candlelight Ceremony for Walker-Jackson Wedding

Third Baptist Church was the scene Saturday evening of the candlelight wedding of Miss Nancy Darlene Jackson and Sp/4 James Allen Walker. The bride is a daughter of Mrs. Delma Elmore, 742 Twenty-seventh place and the groom is the son of Mr. and Mrs. Allen W. Walker, 2138 Lynch avenue.

Rev. Eugene Phillips performed the double-ring ceremony before an altar decorated with white candelabra and large bouquets of yellow gladiolus and pom poms. Jerry Meyenburg and Bobby Pickler served as ushers and candlelighters, lighting the candles at 7:30 p.m.

Miss Ruth Ann Showers presided at the organ and accompanied the soloist, Dave Richardson, as he sang "Because" and the "Wedding Prayer."

L. E. Sutton, the bride's uncle, escorted his niece and gave her in marriage. She selected a gown of pure white re-embroidered lace over candlelight satin. The gown was styled with a fitted bodice, a controlled skirt, and long lace sleeves ending in points at the wrists. A scooped neckline fell slightly lower in the back where a cathedral lace train was secured with tiny lace covered buttons. She wore a single strand of pearls.

A triple-tiered fingertip veil of sheer illusion was held in place by a cluster of organza rose petals and tiny seed pearls. The bride carried a heart-shaped bouquet of white carnations and ivy, centered with a New Testament and a detachable white orchid corsage.

Attending the bride were as matron of honor and Miss Nancy Walker, the groom's sister, and Miss Kathy Elliot, who were bridesmaids.

"They wore identical floor-length gowns of pastel yellow satin with an A-line silhouette, scooped neckline and short cap sleeves. Back interest was achieved with a long satin panel attached to the Empire waist, with a large bow and trimmed with white lace. They carried colonial bouquets of yellow and white carnations and wore matching yellow bow headpieces securing nose tip veils."

Little Tammy and Ricky Herzing, niece and nephew of the bride, were flower girl and ring bearer. The flower girl appeared in a short yellow frock with a white ruffled pinafore tied in the back with a large bow. She wore a yellow floral headpiece and carried a basket of yellow carnations.

Mr. Walker chose Glen Ash-off as his best man, with Dan McBride and Harry Ward as groomsmen.

For her daughter's wedding Mrs. Elmore wore an aqua dress of lace over taffeta with matching accessories. The dress was designed with an over-blouse effect which ended in scallops just below the waist in the back. She wore an aqua rose-petal hat with a short veil and a corsage of white cymbidium orchids.

Mrs. Walker, the groom's mother, was attired in a light blue, semi-fitted double-knit dress, and her accessories were bone color. She also wore a white cymbidium orchid corsage.

Friends and relatives of the couple attended a reception, given by the bride's mother in the church social rooms, following the ceremony. Miss Debbie Elmore attended the guest book.

Assisting with the reception were Mesdames Juita Carmack, Jerry Short, Pearl Vinson, Barbara Hansen and Miss Linda Hofrieter.

Mr. and Mrs. Walker were just at a rehearsal dinner for the members of the wedding party in their home.

Both young people were graduated from the local high school. Sp/4 Walker is presently serving with the Army and is stationed at Fort Detrick, Md., where they will reside following a wedding trip.

Out-of-town guests include Mr. and Mrs. L. E. Sutton, Mrs. Margaret Storjohann, Mrs. Charles Lenz, Mrs. Dale F. Hansen, and Miss Linda Hofrieter all of Moline, Ill., and Mrs. Ann Mayhall of Alton.

Among the out-of-town guests were Mr. and Mrs. Dan Mahoney of Toledo, O.

RECENT BRIDE, Mrs. James Allen Walker, the former Nancy Darlene Jackson, a daughter of Mrs. Delma Elmore, 742 Twenty-seventh place, who was married Saturday evening at Third Baptist Church.

## VanVoorst-Vinton Nuptials At Central Christian Church

Miss Susan K. Vinton, daughter of Mr. and Mrs. Harold Walter Vinton, 3248 Wayne avenue, and Frans Thomas Van Voorst, IV, son of Mr. and Mrs. F. T. Van Voorst III, New Hartford, Conn., exchanged wedding vows Saturday afternoon at Central Christian Church, 2020 Johnson road.

Rev. James R. Craddock, pastor, officiated at the 2:30 p.m. ceremony before an altar decorated with altar vases of white flowers and greenery.

Given in marriage by her father, the bride appeared in a floor length gown of pure white Chantilly lace fashioned with a Sabrina neckline and traditional long sleeves. The very bouffant skirt of ruffles was worn over layers of crinoline and fell into a full sweeping train.

A forward headpiece of lace petals embellished with pearls and crystals held her tiered veil of bridal illusion. She carried a colonial bouquet of white roses, lily of valley and long streamers.

The maid of honor was Miss Linda Vinton, sister of the bride, and Miss Charlotte Rice and Miss Sherry Howard were bridesmaids.

They wore identical dresses in pink dotted swiss, floor length, with peter pan collars and long full sleeves. Tiny ruffles accented the bodice with rhinestones. A wide green satin belt encircled the waistline ending in the back with a large bow and long streamers.

Matching headpieces held nose tip circular veils, and their flowers were pink daisies.

Richard Burns attended the groom as best man, and the groomsmen were H. Ronald Vinton, a brother of the bride, and Robert T. Aangeenbrug of Lawrence, Kan.

A reception for wedding guests immediately followed the ceremony in the church Fellowship Hall.

The former Miss Vinton is a 1965 graduate of Granite City High school and is employed at the Granite City Trust & Savings bank.

Mr. Van Voorst was graduated from the University of Connecticut, Storrs, Conn., and is a cartographer for the U. S. Air Force Aeronautical Chart and Information Center, St. Louis.
